

MD SHIHAB HOSSAIN

Address : Mirpur-6, Block D, Road 4
Phone : +8801759469332
Email : mdshihabhossain726@gmail.com

SUMMARY

Computer Science and Engineering student at Bangladesh University of Business and Technology (BUBT), building practical skills in programming, databases, and software development. Interested in Artificial Intelligence, Data Science, and research, with a goal of pursuing further academic opportunities. Also brings professional experience coordinating orders for corporate clients.

WORK EXPERIENCE

Marketing executive | Matrix Technologies **April 2026 - Present**

- Coordinate with corporate clients to understand requirements and support order completion.
- Follow up on orders and communicate with clients to help ensure smooth processing and timely delivery.
- Maintain professional client relationships through clear communication and coordination.
- Work with relevant teams to address order-related questions and support client satisfaction.

EDUCATION

Bachelor of Science in Computer Science and Engineering (CSE) **Jan 2025 - Present**
Bangladesh University of Business and Technology (BUBT)

- Current status: 5th Semester (ongoing)

Higher Secondary Certificate (HSC) **2022**
Mawlana Bhashani Adarshaw College

- Group Science
- GPA 4.50

Secondary School Certificate (SSC) **2020**
IB High School

- Group Science
- GPA 4.00

PROJECTS

Research Paper Organizer | Python, SQLite (project in progress)

- Developing a desktop application concept to organize research papers and manage related academic information.

ResearchHub Database | PostgreSQL, SQL (academic database project)

- Designing a relational database for research-management workflows, with emphasis on structured data and SQL implementation.

Scam Message Detection | Early-stage research idea

- Exploring background research into methods for identifying suspicious messages and calls; implementation and evaluation are future work.

Ein Neues Leben — German Language Learning Visual Novel

- Technologies: Ren'Py, Python, GitHub
- Developing an interactive visual novel that combines storytelling with German language learning.
- Designing character dialogues and player choices to support engaging language practice.
- Documenting project development, features, and screenshots using GitHub.

FELLOWSHIPS & RESEARCH EXPERIENCE

Global Mental Health Fellowship | 2026
Global Mental Health Fellow — Cohort 5
Research Focus: AI-Facilitated Challenges and Their Potential Impact on Youth Mental Health.

- Exploring how AI tools may contribute to stress, anxiety, and other mental health challenges among young people.
- Examining the impact of AI-assisted assignments on student stress, academic trust, and teacher–student relationships.
- Investigating the potential risks of unsupervised chatbot use for mental health support, emotional guidance, and interpersonal communication advice.
- Exploring the mental health and digital safety implications of AI-generated deepfakes,particularly their potential impact on young women and girls.
- Examining how AI-related challenges intersect with young people's emotional well-being, online safety, and social experiences.

RESEARCH INTERESTS & LANGUAGES

- **Research interests:** Artificial Intelligence, Data Science, Machine Learning, and AI's impact on youth well-being.
- **Languages:** Bangla (native); English (good working proficiency).

TECHNICAL SKILLS

- **Programming:** Python, Java, C++, C, HTML
- **Databases:** SQL, PostgreSQL, relational database concepts
- **Tools:** Git, GitHub, Visual Studio Code, Microsoft Office
- **Core coursework:** Data Structures and Algorithms, Object-Oriented Programming, Database Systems, Operating Systems

ADDITIONAL SKILLS

- **Communication:** English speaking and listening
- **Client Service:** Client coordination and professional follow-up
- **Order Management:** Order tracking and completion coordination
- **Work Skills:** Problem-solving, teamwork, time management

ADDITIONAL INFORMATION

- **Night-shift availability:** Yes
- **Career interest:** International customer support and client communication

"Technology drives innovation;
Human understanding gives it purpose."
